The figure shows four empty place value charts, each corresponding to a number. Each chart is a rectangle divided into four vertical columns and two horizontal rows. A horizontal line runs across the middle of each chart, separating the top row from the bottom row. A small black dot is placed in the second column from the left, on the horizontal line, representing the decimal point. The numbers 391, 493, 735, and 215 are written above their respective charts. Above each number is a circled number: 5, 6, 7, and 8 respectively.
