

Times Tables

Name _____

The 1 times table

$1 \times 0 = \square$ One times zero is

$1 \times 1 = \square$ One times one is

$1 \times 2 = \square$ One times two is

$1 \times 3 = \square$ One times three is

$1 \times 4 = \square$ One times four is

$1 \times 5 = \square$ One times five is

$1 \times 6 = \square$ One times six is

$1 \times 7 = \square$ One times seven is

$1 \times 8 = \square$ One times eight is

$1 \times 9 = \square$ One times nine is

The 2 times table

$2 \times 0 = \square$ Two times zero is

$2 \times 1 = \square$ Two times one is

$2 \times 2 = \square$ Two times two is

$2 \times 3 = \square$ Two times three is

$2 \times 4 = \square$ Two times four is

$2 \times 5 = \square$ Two times five is

$2 \times 6 = \square$ Two times six is

$2 \times 7 = \square$ Two times seven is

$2 \times 8 = \square$ Two times eight is

$2 \times 9 = \square$ Two times nine is

The 3 times table

$3 \times 0 = \square$ Three times zero is

$3 \times 1 = \square$ Three times one is

$3 \times 2 = \square$ Three times two is

$3 \times 3 = \square$ Three times three is

$3 \times 4 = \square$ Three times four is

$3 \times 5 = \square$ Three times five is

$3 \times 6 = \square$ Three times six is

$3 \times 7 = \square$ Three times seven is

$3 \times 8 = \square$ Three times eight is

$3 \times 9 = \square$ Three times nine is

The 4 times table

$4 \times 0 = \square$ Four times zero is

$4 \times 1 = \square$ Four times one is

$4 \times 2 = \square$ Four times two is

$4 \times 3 = \square$ Four times three is

$4 \times 4 = \square$ Four times four is

$4 \times 5 = \square$ Four times five is

$4 \times 6 = \square$ Four times six is

$4 \times 7 = \square$ Four times seven is

$4 \times 8 = \square$ Four times eight is

$4 \times 9 = \square$ Four times nine is

The 5 times table

$5 \times 0 = \square$ Five times zero is

$5 \times 1 = \square$ Five times one is

$5 \times 2 = \square$ Five times two is

$5 \times 3 = \square$ Five times three is

$5 \times 4 = \square$ Five times four is

$5 \times 5 = \square$ Five times five is

$5 \times 6 = \square$ Five times six is

$5 \times 7 = \square$ Five times seven is

$5 \times 8 = \square$ Five times eight is

$5 \times 9 = \square$ Five times nine is

The 6 times table

$6 \times 0 = \square$ Six times zero is

$6 \times 1 = \square$ Six times one is

$6 \times 2 = \square$ Six times two is

$6 \times 3 = \square$ Six times three is

$6 \times 4 = \square$ Six times four is

$6 \times 5 = \square$ Six times five is

$6 \times 6 = \square$ Six times six is

$6 \times 7 = \square$ Six times seven is

$6 \times 8 = \square$ Six times eight is

$6 \times 9 = \square$ Six times nine is

The 7 times table

$7 \times 0 = \square$ Seven times zero is

$7 \times 1 = \square$ Seven times one is

$7 \times 2 = \square$ Seven times two is

$7 \times 3 = \square$ Seven times three is

$7 \times 4 = \square$ Seven times four is

$7 \times 5 = \square$ Seven times five is

$7 \times 6 = \square$ Seven times six is

$7 \times 7 = \square$ Seven times seven is

$7 \times 8 = \square$ Seven times eight is

$7 \times 9 = \square$ Seven times nine is

The 8 times table

$8 \times 0 = \square$ Eight times zero is

$8 \times 1 = \square$ Eight times one is

$8 \times 2 = \square$ Eight times two is

$8 \times 3 = \square$ Eight times three is

$8 \times 4 = \square$ Eight times four is

$8 \times 5 = \square$ Eight times five is

$8 \times 6 = \square$ Eight times six is

$8 \times 7 = \square$ Eight times seven is

$8 \times 8 = \square$ Eight times eight is

$8 \times 9 = \square$ Eight times nine is

The 9 times table

$9 \times 0 = \square$ Nine times zero is

$9 \times 1 = \square$ Nine times one is

$9 \times 2 = \square$ Nine times two is

$9 \times 3 = \square$ Nine times three is

$9 \times 4 = \square$ Nine times four is

$9 \times 5 = \square$ Nine times five is

$9 \times 6 = \square$ Nine times six is

$9 \times 7 = \square$ Nine times seven is

$9 \times 8 = \square$ Nine times eight is

$9 \times 9 = \square$ Nine times nine is
